Bauman Moscow State Technical University, Moscow, 105005, Russia

The main purpose of the article is to explore the experience of ensuring the stability of credit and banking systems in foreign countries and the possibility of using it in Russia. The research explored various options for building foreign banking systems and the role of the state and law in the development of capital market. We identified opportunities of using the experience of foreign banking systems in domestic practice.

Keywords: *foreign banking system, the central bank, the banking legislation.*
