
Technique as a phenomenon of reality of human being

© T.V. Torubarova, A.P. Petenin

Bauman Moscow State Technical University, Moscow, 105005, Russia

The article deals with technology as a constitutive principle of the reality of human existence. It reviews its key determinants. The authors describe topology of technology, they look at the problem of technical rationality. They show destructive and constructive features of the human race and technology interaction.

Keywords: *technology, technosphere, instrumentality, artifact, rationality, responsibility, mechanism, ethics, harmony, creativity.*
