Bauman Moscow State Technical University, Kaluga Branch,  
Kaluga, 248000, Russia

*This article discusses key features of Russian philosophical thought of XIX–XX centuries. It is shown that Russian philosophy is religious, has a tendency to anthropology and to creation of utopias, as well as to consideration of matters relating to the search of Russia's place in the world community. It is demonstrated that it meets demand in modern Russian political realities.*

**Keywords:** *Russian philosophy, philosophy of history, anthropocentrism, utopia, theology.*
