Bauman Moscow State Technical University, Moscow, 105005, Russia

The article gives the analysis of survey results carried out among students from various universities. The article considers students' interests and opportunities to combine study and work. The findings show that such an interest exists. However, there is a problem with students' employment in their specialty. The article proposes the measures to support students' professional growth.

Keywords: *students, employment, work experience, professional development, academic performance, the combination of work and study.*
