Under the conditions of permanent growth in the number of foreign citizens coming to study in Russia, the question of training them to master the basic professional educational programs is becoming increasingly important. The article describes the methodological aspect of the organization of the educational process at the Preparatory Department of the Faculty of international educational programs of BMSTU with account of different directions of the educational programs, individual characteristics of students and their plans for further study at Bachelor's, Specialist's and postgraduate programs.

Keywords: *Russian as a foreign language, direction of study, educational program, preparatory department, adaptation, testing, attestation, methodological support*
